

England South Approval Panel

Notes and guidance for AC portfolio applicants

All included anonymised examples of RC functions or other clinical practice must be **no more than 2 years old at the time of application**. As the AC application can only be supported by evidence which is contemporary of an applicant's current practice.

Submitted anonymised evidence of section C & D should be countersigned by the AC / RC mentor to testify that the mentor has had the sight of the portfolio of work and affirms that the applicant has demonstrated capability to perform these key RC functions. Each document should be signed individually also with the name of the mentor and date signed.

In line with the GMC and other professional bodies guidance, the Approval Panel expects that all approval applications are appropriately redacted to ensure Data Protection compliance and regulatory governance. Included case materials and associated patient identifiable information must be suitably anonymised. Names, addresses and other unique identifying data such as NHS numbers or dates of birth of patients, or identifiable data related to familiar others e.g. family, carers or acquaintances etc should be removed or effectively obscured. The use of black pen to redact will not work once a document is scanned.

Within the AC portfolio, the name of the applicant should be unredacted, while Trust and Hospital Logo, and the names and professional credentials of colleagues can also be retained with the application Section A. These should be removed within Section C & D with the exception of the mentors name for countersignature purposes.

The guidance below sets out the documents required. These should be submitted electronically with file name as per each section / sub- section, i.e. A1 – Application Form, A2 – Professional Qualifications and Professional Registration etc.

Applications should be submitted by email to heather.waltham@winterhead.co.uk each section can be submitted by separate email if required, with file names adhering to the format above.

The contents of your portfolio **must be** your own genuine work. Do not use reports produced for anyone else. As you are not approved, your reports should be created as if you were the RC, and this should be noted in your reports and reflections.

You are expected to have at least seven years' experience in psychiatry, with at least 4 years in a senior position.

The Relevance of Reflective practice within the AC Portfolio

The purpose of the AC Portfolio is to enable applicants to submit evidence that demonstrates the 8 AC competencies as specified in the Secretary of States Instructions. For further information, you should refer to DH AC Instructions 2015, or New Roles Guidance 2008 NIMHE.

1. The role of the Approved Clinician and Responsible Clinician
2. Legal and Policy Framework
3. Assessment

4. Treatment
5. Care Planning
6. Leadership and multi-disciplinary team working
7. Equality and Cultural Diversity
8. Communication

Reflective practice is a key component of the AC portfolio and should illustrate an applicant's: underpinning skill base; knowledge of legislation; and their application of the AC / RC role. To effectively demonstrate such evidence the DH recommends that applicants refer to their own profession's guidance on reflective practice.

AC Portfolios that breach confidentiality will not be submitted to the Panel, while significant breaches will be brought to the attention of an applicant's Medical Director / employing organisation.

7	I have consulted my employer's policies, procedures and selection criteria for approval as an AC (if available).	
8	I have organisational support from my line manager, and we have a plan for my envisaged deployment as an AC/RC.	
9	I have also ensured that my application for approval and these plans have the support of my Medical or other relevant Clinical Director.	
10	I have identified at least one mentor who is an AC and who is prepared to support me in my preparation.
